

Invitation to Attend a Seminar and Workshop introducing new technologies related to batteries and materials used in electronic industry

SEOUL SEMINAR SERIES - Battery, Electronic, Ceramic & Electronics

Number 52A - 2024

TECHNICAL APPLICATION SEMINAR & Workshop ON RHEOLOGY AND MATERIAL PROCESSING

DATE	Tuesday 12 Mar. 2024
TIME	9.00 am – 5.20 pm
VENUE	Chamonix Hall Hotel Riviera Cheongdam, Seoul
PRESENTER	Mr. Raphael Klein Mr. Matthias Jaehrling & Dr. Seungrok Kim
COSTS	General: KW 100,000 / Students: KW 50,000
RSVP	5.00 pm Fri. 08 Mar., 2024

Please complete the form overleaf.

experts. Mr. Jaehrling, Mr. Klein & Dr. Kim's extensive knowledge will help you find out more about your application.

- It is an opportunity to learn how to put that theory of rheology, in-line particle analysis and twin screw compounding technology into practice, **benefiting your product and process.**

Professional Advice

Raphael Klein joined SOPAT in 2021. He holds a M.Sc. and B.Sc. from faculty of Process Sciences at Technical University of Berlin. He gained expertise working in research-, industrial production environments and within projects in process engineering companies both on national and international level.

Mr. Jaehrling has been working as senior application specialist at Thermo Fisher Scientific, Karlsruhe Germany since early 1990.

Dr Kim has obtained his Ph.D in physical chemistry. in 1994. Following his Ph.D candidature, he accepted a position as a post-doctoral fellow in the area of rheology and polymers. He continued his research work as a research fellow for both the Rheology and Material Processing Centre and the Polymer Technology Centre at the R.M.I.T. He worked as a Thermo Haake regional manager in Asia-Pacific till the beginning of 2002. He's been leading MCIK since then.

The Seminar offers:

- **An interactive forum for discussion**
- **The opportunity to discuss your products & processes**

Benefits of Attending

- This seminar is tailored to each of the attendees' products and application requirements. It is therefore suited to QA, QC, R&D, and Production personnel.
- The seminar integrates the theory into practice.
- Tailored Seminar Service give you the opportunity to talk to the

Introduction to Steady Shear Rheology – 1
RSVP by 08 Mar. to the
Riviera Hotel Seoul Seminar.
Details overleaf.

(Dr. SR Kim)

Yes, I wish to attend the seminar on 12th of Mar. by Mr. Klein, Mr. Jaehrling & Dr. Kim in the Rivera Cheongdam Hotel Seoul

Number of people with me will be

I would like to make a time to see () during the seminar session.
Please call me to discuss what appointment times are available.

I would like () to visit my company on () for consulting ()
problem we have. Please call me to discuss what appointment times are available.

I am unable to attend, please send me information on the following applications.....
.....

To assist us in covering the application areas that are of most interest to you, please provide us with your response to the following questions:

What is your major interest/s?

- | | | |
|---|---|---|
| <input type="checkbox"/> Introduction to Rheology & Rheometry | <input type="checkbox"/> Rheology for QA and QC | <input type="checkbox"/> Twin Screw Extrusion |
| <input type="checkbox"/> Twin Screw Granulation | <input type="checkbox"/> Photo Optical Image Analysis | <input type="checkbox"/> NMR Relaxometry |
| <input type="checkbox"/> Spatial Filtering Velocimetry | | |

What is your major area of analysis?
.....

Comments: *Specifically, for my application, I would like the following covered ...*

RSVP by 5.00 pm Friday 08 Mar. 2024
